IN CHARGE :

Dr. Rai Muhammad Asghar
Associate Professor of Paediatrics
Head of Paediatric department BBH

STATISTICS OF PAEDIATRICS DEPARTMENT.

- Total Admission = 160
- Total Expiries = 35
- BBH = 7

CASE NO 1

- B/O Shazia, F/N Muhd. Munir, 7DOL, FC, 2 kg wt
- SVD , BBH, G₂P₁⁺⁰ at term
- Admitted on 08/10/08 at 8:15am
- Maternal H/O not available
- **Call attended by Paeds Dept**
- Baby delivered with apgar score 5/10 & 6/10
- Baby shifted to Nursery got sick on 1 DOL
- **Diagnosis:** Septicemial LBW 2kgs/DIC/NEC
- **Managed with** Broad spectrum antibiotics, Inj. Vit. K, Inj. Zantac, Inj. Flagyl, Inf. Dopamine
- **Expired on** 14/10/08 at 6 :00am
- **Total duration of hospital stay** was 7 days

CASE NO 1

- **B/O Samina, F/N Asif, 4DOL, MC , 0.7kg wt**
- **SVD with Epi, BBH ,Primigravida at 26⁺wks**
- **Admitted on 13/10/08 at 11 :20 pm**
- **Call noted by Paeds Department**
- **Baby delivered with apgar score of 4/10 & 6/10**
- **Baby pink but cry poor, reflexes depressed, pulses palpable vitally stable**
- **Diagnosis: Prematurity 26⁺wks, incredible low birth 0.7kg sepsis**
- **Managed with Broad spectrum antibiotics, supportive care incubator care, I/V fluids**
- **Expired on 16/10/08 at 07 :30pm**
- **Total duration of hospital stay was 4days**

CASE NO 2

- B/O Nabeela, F/N Waris Ali, 1DOL, MC , 1kg wt
- SVD at BBH , Primigravida at 26 wks
- Admitted on 16/10/08 at 04:30 pm.
- **Call attended by Paeds Dept**
- Baby delivered with apgar score 2/10 & 6/10
- Resuscitate with full protocol at birth
- O/E V.V.sick, gasping respiration, cyanosed , hypothermic, with poor p.pulses and perfusion reflexes poor
- **Diagnosis:** Birth Asphyxia, sarnat III, preterm 26 wks VLB (1kg)
- **Managed with** Broad spectrum antibiotics, Infusion dopamine , I/V fluid supportive care, blood transfusion
- **Expired on** 16/10/08 at 9 :00 pm
- **Total duration of hospital stay** was 5 hrs

CASE NO 3

- B/O Shaista, F/N Tanveer, 6DOL, FC , 2.5 kg wt
- Em C section at, BBH , d/t previous scar
- Maternal H/O Diabetes positive
- Admitted on 15/10/08 at 11:15 am
- **Call was attended by Paeds department**
- At time of delivery resuscitation done
- O/E: Baby sick / moaning, hypothermic, pulses feeble peripheral cyanosis, Reflexes poor
- **Diagnosis:** Birth Asphyxia III, multiorgan failure, IDM. Situs Inversus
- Managed with Broad spectrum antibiotics, Inf dopamine supportive care, I/V fluids, O2 inhalation etc
- Expired on 20/10/08 at 11:35am
- Total duration of hospital stay was **6days**

CASE NO 4

- B/O Nazia, F/N Khursheed 1DOL, FC , 2.3 kg wt
- Em C section at , BBH ,d/t H/O prom > 48hrs
- G3 P2⁺⁰ at full term
- Admitted on 19/10/08 at 4:22am
- **Call attended by Paeds Dept**
- Baby delivered with apgar score 3/10 & 5/10
- Resuscitate in COT
- O/E: GC sick, moaning, cyanosed , Hypothermic, peripheral pulses palpable but weak, refluxes depressed
- **Diagnosis:** Septicemia ,Birth Asphyxia III
- **Managed with** Broad spectrum antibiotics, Inf dopamine, I/V fluids Supportive care O2 inhalation etc
- **Expired on** 20/10/08 at 7:00 am
- **Total duration of hospital stay** was 24 hrs

CASE NO 5

- B/O Nargis , F/N Khaliq, 5DOL, MC , 3 kg wt
- Em C section at BBH ,to a PG at full term
- d/t failure to progress, H/O PROM > 4 days dai handled
- Admitted on 17/10/08 at 12:30 am
- **Call attended by Paeds Dept**
- Baby delivered with apgar score 3/10 & 5/10
- Resuscitated in COT, ETT passed and shifted to NICU with ambo bagging
- O/E: VV sick, cyanosed , Hypothermic, Pulses poor, Peripheral, perfusion poor, reflexes depressed
- **Diagnosis:** Birth Asphyxia III, Septicemia
- **Managed with** Broad spectrum antibiotics, Infusion dopamine , I/V fluids, O2 inhalation, Inj. Calcium Gluconate, Supportive care, FFPs & blood transfusion
- Expired on 22/10/08 at 6:15 am
- **Total duration of hospital stay was 6 days**

CASE NO 6

- B/O Nabeela, F/N Saeed Ahmad, 1DOL, FC , 1 kg wt
- Em C section at BBH ,to a G₄P₃⁺⁰ at 28 wks d/t transverse lie
- Admitted on 22/10/08 at 01:20 pm
- **Call attended by Paeds Dept**
- Baby shifted to NICU
- O/E: Sick, Hypothermic, cyanosed , moaning
- **Diagnosis:** Preterm (28wks), VLBW 1kg
- **Managed with** Broad spectrum antibiotics, Infusion dopamine , Incubator care, I/V fluids, Supportive care etc
- Expired on 22/10/08 at 4:30 pm
- **Total duration of hospital stay was 3 hrs**

CASE NO 7

- B/O Hayat , F/N Naeem ul Haq, 1DOL, MC , 1 kg wt
- Em C section at BBH ,to a PG at 28 wks
- d/t Prematurity, H/O PVleakage > 24hrs, hand prolapse
- Admitted on 24/10/08 at 8:30 pm
- **Call attended by Paeds Dept**
- O/E: At delivery sick, moaning, hypothermic, cyanosed, pulse poor, reflexes poor etc
- **Diagnosis:** Sepsis, Prematurity (28wks) VLB (1kg)
- **Managed with** Broad spectrum antibiotics, Infusion dopamine , I/V fluids, Supportive care etc
- Expired on 25/10/08 at 8:30 am
- **Total duration of hospital stay** was 12 hrs

Thank You
