

# STATISTICS OF PAEDIATRICS DEPARTMENT.

- Total Admission =
- Total Expiries =
- RGH = 6

# CASE NO 1

- B/O Yasmeeen , NB , MC , 2.5 kg wt
- EmLSCS (d/t fetal distress), BBH, G<sub>4</sub>P<sub>0</sub><sup>+0</sup> (3 ENND. Cause of death unknown)
- GA 40 wks
- Admitted on 04/11/08 at 2:45am
- Maternal H/O PV leakage > 24hrs.
- **Call was attended by paed's deptt.**
- Baby delivered with apgar score 4/10 & 6/10. Baby was shifted to NICU
- O/E: Moaning, tachypnic, cyanosed (cyanosis not improved with oxygen through out the stay), poor peripheral pulses and perfusion
- **Diagnosis:** Neonatal sepsis, congenital heart disease, Inborn Error of Metabolism.
- **Managed with** Broad spectrum antibiotics, Infusion dopamine, O<sub>2</sub> inhalation, maintenance fluids, monitored for vitals and blood sugar.
- **Expired on** 04/11/08 at 5 :30pm
- **Total duration of hospital stay** was 3hrs and 15min.

# CASE NO 2

- B/O Yasmin Ishaq, NB , FC , 3kg.
- EmLSCS (d/t meconium grade III and fetal distress), BBH ,G<sub>2</sub>P<sub>1</sub><sup>+0</sup> , GA 40 wks
- Admitted on 6/11/08 at 02 :45 pm
- **Baby was received and resuscitated in COT by paeds deptt.**
- Apgar score 1/10 & 3/10
- Resuscitated with full protocol at birth. ETT passes and shifted to NICU on AMBU bagging.
- O/E:V.sick, absent peripheral pulses and NNR, nails and chord meconium stained, chest hyper inflated.
- **Diagnosis: Birth Asphyxia Sarnett III.**
- **Managed with** Broad spectrum antibiotics, Infusion dopamine & remained on ventilatory support for 1hr and 10 min.
- Expired on 6/11/08 at 3:55pm
- **Total duration of hospital stay was 1 hr 10 min**

# CASE NO 3.

- **B/O Nazia Waseem, NB , MC , 1.5 kg wt**
- **EmLSCS (Twin delivery), BBH ,PG,GA 33 wks**
- **Admitted on 08/11/07 at 7:30 am.**
- **Call was not attended by Paeds deptt**
- **O/E: V.sick ,cyanosed , hypothermic, with poor peripheral pulses, depressed NNR, fits observed twice during the stay.**
- **Diagnosis: Birth Asphyxia S II, Prematurity, VLBW.**
- **Managed with Broad spectrum antibiotics, Infusion dopamine , Infusion Aminophylline, anticonvulsant, O<sub>2</sub> inhalation, monitored for vitals and blood sugar.**
- **Expired on 8/11/08 at 1 :00 pm**
- **Total duration of hospital stay was 5 and half hrs**

# CASE NO 4

- **B/O Naik Bakht, NB , MC , 2.5 kg wt**
- **EmLSCS (d/t hydrocephalus, Grade IV meconium, Dai handling and fetal distress), BBH , PG, GA 40 wks**
- **Admitted on 08/11/08 at 12:00 pm**
- **Maternal h/o PV leakage of two days.**
- **Call was attended by paed's deptt**
- **APGAR score 3/10 and 6/10.**
- **O/E: Sick, lethargic, moaning, tachypnic, poor peripheral pulses & depressed NNR, hydrocephalus H.C 48cm, spine normal.**
- **Diagnosis: Birth Asphyxia sarnet I, Neonatal sepsis.**
- **Managed with broad spectrum antibiotics, Infusion dopamine, O<sub>2</sub> inhalation, maintenance fluids**
- **Expired on 9/11/07 at 10:00am**
- **Total duration of hospital stay was 22 hrs**

# CASE NO 5

- B/O Ambreen, NB, MC, 2 kg wt
- EmLCS (d/t twin delivery), BBH , PG, GA 35 wks
- Admitted on 10/11/08 at 7:50 pm
- **Call was attended by Paeds deptt.**
- Baby delivered with apgar score 2/10 & 4/10
- O/E: Sick, moaning, cyanosed, poor peripheral pulses, depressed NNR, fits observed once during the stay.
- **Diagnosis:** Prematurity, LBW, Birth Asphyxia Sarnet II
- **Managed with** Incubator care, broad spectrum antibiotics, Infusion dopamine , anticonvulsant, O<sub>2</sub> inhalation, monitored for vitals and blood sugar.
- Expired on 12/11/08 at 7:00 am
- **Total duration of hospital stay** was 35 hours & 10 min (1 ½ day)

# CASE NO 6

- B/O Azra, NB, FC, 1.5 kg wt
- SVD, BBH PG ,GA 28wks, h/o dai handling
- Admitted on 16/11/08 at 11:30 am
- **Call attended by paed's dept**
- Baby delivered with apgar score 3/10 & 5/10
- O/E: Sick, poor peripheral pulses ,depressed NNR, developed cardiopulmonary arrest 3 times during the stay resuscitated with full protocol each time; revived with spontaneous breathing for the first two times.
- **DIAGNOSIS:** prematurity, VLBW, birth asphyxia Sernat I, Neonatal sepsis.
- Managed with broad spectrum antibiotics, Infusion dopamine, I/V Fluids, O<sub>2</sub> inhalation, FFP's transfusion, vital monitoring.
- Expired on 16/11/08 at 11:00 pm
- Total duration of hospital stay was 12 hour 30 minutes

# Case No. 7

B/O Samina, NB , FC , 2.5 kg wt

SVD, BBH,

GA 38 wks

Admitted on 29/10/08 at 12:15pm

Call was attended by paed's deptt.

Baby delivered with apgar score 4/10 & 6/10. Baby was shifted to NICU

O/E: Dysmorphic baby with short neck, webbing of neck, pectus carinatum, beaked nose, rocker bottom feet, sick moaning, poor peripheral pulses

Diagnosis: Syndromic baby, neonatal sepsis

Managed with Broad spectrum antibiotics, Infusion dopamine, O2 inhalation, maintenance fluids, monitored for vitals and blood sugar.

Expired on 01/11/08 at 8 :20am

Total duration of hospital stay was 1 ½ days

# Case No 8

- **B/O Jamila , NB , MC , 2 kg wt**
- **SVD, BBH, PG.**
- **GA 32 wks**
- **Admitted on 30/10/08 at 8:30pm**
- **Baby was shifted to NICU**
- **O/E: Moaning, tachypnic, cynosed (cynosis not improved with oxygen through out the stay), poor peripheral pulses and perfusion**
- **Diagnosis: Neonatal sepsis, DIC congenital heart disease, birth asphyxia S-III, Prematurity, LBW**
- **Managed with Broad spectrum antibiotics, Infusion dopamine, O<sub>2</sub> inhalation, maintenance fluids, monitored for vitals and blood sugar.**
- **Expired on 01/11/08 at 6 :00am**
- **Total duration of hospital stay was 10hrs**

# Case No. 9

- B/O Razia , NB , FC , 1.6 kg wt
- EmLSCS (d/t failure to progress & hand prolapse), BBH,
- GA 40 wks
- Admitted on 28/10/08 at 12:30pm
- **Call was attended by paedts deptt.**
- Baby delivered with apgar score 3/10 & 5/10. Baby was shifted to NICU
- O/E: Moaning, tachypnic, poor peripheral pulses and perfusion
- **Diagnosis:** Birth Asphyxia, S-III, Prematurity, VLBW,
- **Managed with** Broad spectrum antibiotics, Infusion dopamine, O2 inhalation, maintenance fluids, monitored for vitals and blood sugar.
- Expired on 03/11/08 at 3 :00pm
- **Total duration of hospital stay was 5 days & 03 hrs**
